

Environmental Protection Agency (EPA) Hearing:

How do EPA regulations affect your business?
How is the United Nation's Agenda 21 funded by the EPA?
What can you do to stop them?

- Is your business being impacted by the Environmental Protection Agency's regulations?
- Did you know that the United Nation's (UN's) Agenda 21 programs are being funded by the EPA in your city and town?
- Did you know the State of AZ is suing the EPA due to all of these environmental controls affecting our AZ businesses?

Come to a special EPA Hearing at the State Capitol to send a message to the EPA that we will not stand for their overbearing regulations in our state that are affecting our businesses and taking away our private property. Private Property ownership and state sovereignty is important to AZ residents!

When: April 11, 2013, 9am- 12pm

Where: Senate Building, Hearing Room #3 (1700 W. Washington St., Phoenix, AZ 85007)

Why: Because we believe in private property ownership and limited federal encroachment on our communities.

What: There will be testimonies from individuals across the state of AZ who have first-hand knowledge and experience addressing the impact of the UN's Agenda 21 programs on our ranches and farms, as well as communities. Some of the focus will also be on the cost incurred and the negative impact on cities, towns and the county with the UN's Agenda 21 and the EPA's enforcement arm to carry out these Agenda 21 policies.

RSVP: Please RSVP to PJ O'Malley from the "Alliance for Sustainable Freedom" group at e-mail alliancefsf@hotmail.com or by phone at (480) 325-0646.

It's a dirty secret known to few that the EPA encourages environmental groups such as Sierra Club to sue them over environmental issues, then purposefully presents a weak defense designed to lose in court for a predetermined decree, or just settles outright "on the courthouse steps" to transfer millions of your tax money directly to them without taxpayer review or approval!
